oppose video lottery and maybe that's the way it should go instead. So, with that, I will withdraw this amendment. And I guess one thing that I would like to say though, if I may before that, and Senator Withem made a point which I think is a good one that we should keep in mind as we progress now with the rest of the amendments that are being proposed on this resolution and that is it should be kept then clean and simple, let the people vote on this issue and then put something in the Constitution and I'm going to say that later on on some of the other amendments that is there for all time and has to be removed in order to undo something that we've done then, that's over and done with, and I'm speaking very specifically now about Commonwealth. Thank you.
